

ALUMINUM HINGED, SLIDING & FIXED PORTS

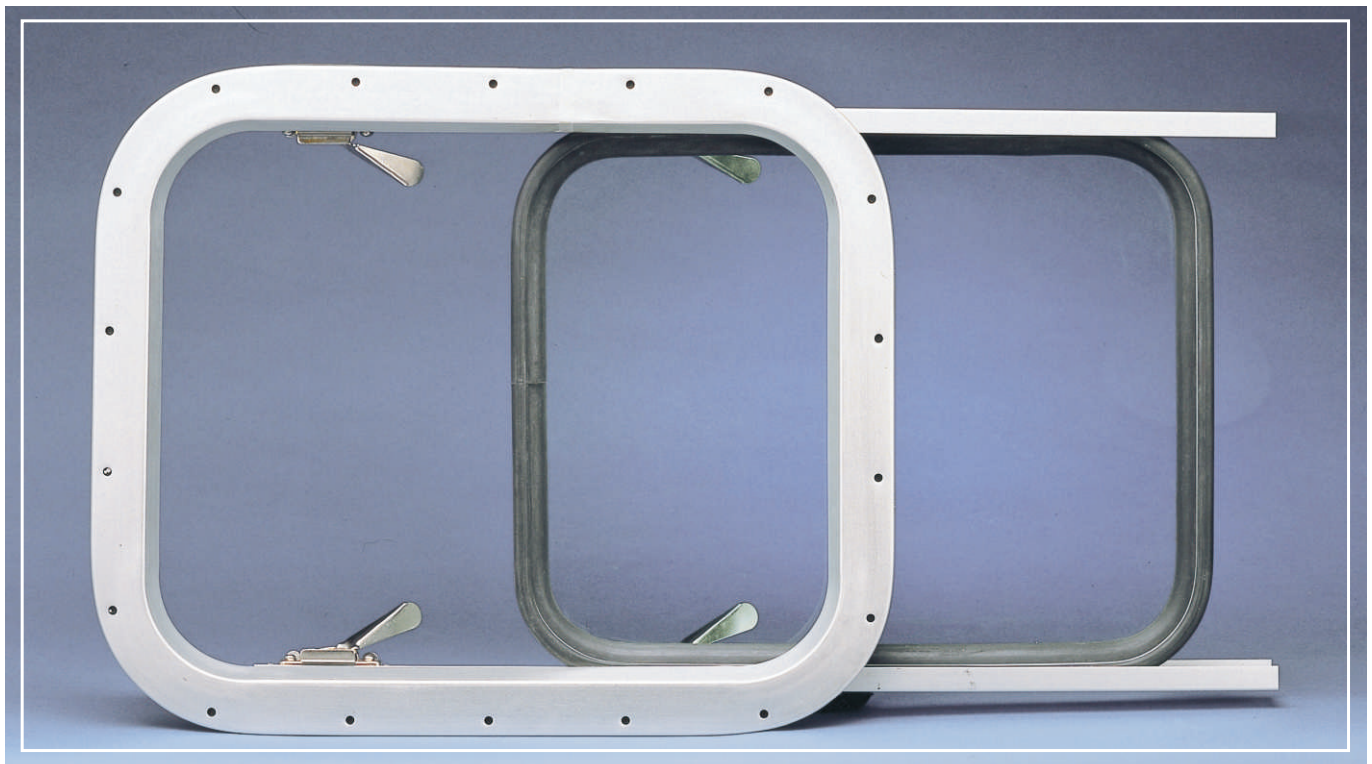

- Man Ship portholes are manufactured from 6063 T5 extruded aluminum alloy and are attractively engineered for both safety and durability.
- Our easy to operate positive locking system ensures excellent water-tight characteristics.
- All our ports are heavily anodized to protect against corrosion and are available in either metallic or black and are fitted with tempered glass.
- We can manufacture custom sizes provided the corner radius remains unaltered.
